HTML Personal Portfolio Assignment

Objective

Create a personal portfolio website using HTML to showcase your skills, education, projects, and contact information.

Requirements

1. **Home Page**
   - full name and short introduction.
   - Navigation menu to other pages.
   - Profile picture.

2. **About Me Page**
   - Education background.
   - Professional experience (if any).
   - Skills and competencies.
   - Hobbies/interests

3. **Projects / Achievements Page**
   - At least 3 projects or accomplishments.
   - Include title, description, and optional screenshots or links.

4. **Contact Page**
   - Email and social/professional profiles.
   - Optional contact form.

5. **Footer (on all pages)**
   - Copyright info or signature.
   - Optional links to social media.

6. Rules

o   All content must be your own.

o   Do not copy from classmates, websites, or AI tools.

o   Provide real and accurate information.

o   Keep it professional and readable.

o   All links and pages must work correctly.

Submission Guidelines

o   Minimum 3–4 pages properly linked.

o   Include at least one image.

o   Organize files (separate folders).

o   Submit all files in a single zipped folder with your full name.

o   Deadline: November 17, 2025

o   Presentations: November 19, 2025

Evaluation

•   Content completeness

•   Navigation & links

•   Structure & organization

•   Professional presentation

•   Code quality
